Case study

Blue Diamond Limited

Your own stock exchange in a box

Retail Garden Centres

~£170m Enterprise Value **~£350m** Revenue p.a 420+ Shareholders **4,000+** Employees

Problems faced by Blue Diamond

- Manual & time consuming share register management
- lnefficient mechanism for share trading
- **Lack of transparency** for buyers \mathcal{L} sellers
- **Low liquidity** of the stock
- **Value of business not reflected** in share price
- **Loss of control** δ **higher costs** if publicly listed

Expected outcomes

- Reduced administration burden
- Concentrates liquidity and enhances price discovery
- Greater shareholder participation
- A more accurate, less volatile share price
- Maintain control of shareholder base, pre-emption rights retained
- · Substantial saving vs listing on public markets

Solutions by TISE Private Markets

- Online tool to conveniently manage share transfers & shareholder records
- An auction model which brings together all buy & sell orders
- A transparent order book with enhanced price formation
- Full control of their own dedicated market, with pre-emption algorithm
- All-inclusive, annual fee no intermediary charges, or transaction fees

"This service provides a fantastic solution for private companies, like Blue Diamond, whose shareholders want a **better way to trade their shares** but without the cost, regulatory burden, and loss of control that a public listing entails. "
